

sources of support in the United States and to U.S. financial facilities. It is also intended to reach charitable contributions to designated organizations and individuals to preclude diversion of such donations to terrorist activities.

Executive Order 12947 demonstrates the United States determination to confront and combat those who would seek to destroy the Middle East peace process, and our commitment to the global fight against terrorism. I shall continue to exercise the powers at my disposal to apply economic sanctions against extremists seeking to destroy the hopes of peaceful coexistence between Arabs and Israelis as long as these measures are appropriate, and will continue to report periodically to the Congress on significant developments pursuant to 50 U.S.C. 1703(c).

WILLIAM J. CLINTON.

THE WHITE HOUSE, January 27, 1998.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on International Relations and ordered to be printed (H. Doc. 105-182).

¶2.10 MESSAGE FROM THE PRESIDENT—  
U.S.-KAZAKHSTAN NUCLEAR ENERGY  
AGREEMENT

THE SPEAKER pro tempore, Mr. SNOWBARGER, laid before the House a message from the President, which was read as follows:

*To the Congress of the United States:*

I am pleased to transmit to the Congress, pursuant to sections 123 b. and 123 d. of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2153(b), (d)), the text of a proposed Agreement for Cooperation Between the Government of the United States of America and the Republic of Kazakhstan Concerning Peaceful Uses of Nuclear Energy, with accompanying annex and agreed minute. I am also pleased to transmit my written approval, authorization, and determination concerning the agreement, and the memorandum of the Director of the United States Arms Control and Disarmament Agency with the Nuclear Proliferation Assessment Statement concerning the agreement. The joint memorandum submitted to me by the Secretary of State and the Secretary of Energy, which includes a summary of the provisions of the agreement and various other attachments, including agency views, is also enclosed.

The proposed agreement with the Republic of Kazakhstan has been negotiated in accordance with the Atomic Energy Act of 1954, as amended by the Nuclear Non-Proliferation Act of 1978 and as otherwise amended. In my judgment, the proposed agreement meets all statutory requirements and will advance the nonproliferation and other foreign policy interests of the United States. The agreement provides a comprehensive framework for peaceful nuclear cooperation between the United States and Kazakhstan under appropriate conditions and controls reflecting our common commitment to nuclear nonproliferation goals.

Kazakhstan is a nonnuclear weapons state party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). Following the dissolution of the Soviet Union, the Republic of Kazakhstan agreed to the removal of all nuclear weapons from its territory. It has a full-scope safeguards agreement in force with the International Atomic Energy Agency (IAEA) to implement its safeguards obligations under the NPT. It has enacted national legislation to control the use and export of nuclear and dual-use materials and technology.

The proposed agreement with the Republic of Kazakhstan permits the transfer of technology, material, equipment (including reactors), and components for nuclear research and nuclear power production. It provides for U.S. consent rights to retransfer, enrichment, and reprocessing as required by U.S. law. It does not permit transfers of any sensitive nuclear technology, restricted data, or sensitive nuclear facilities or major critical components thereof. In the event of termination, key conditions and controls continue with respect to material and equipment subject to the agreement.

I have considered the views and recommendations of the interested agencies in reviewing the proposed agreement and have determined that its performance will promote, and will not constitute an unreasonable risk to, the common defense and security. Accordingly, I have approved the agreement and authorized its execution and urge that the Congress give it favorable consideration.

Because this agreement meets all applicable requirements of the Atomic Energy Act, as amended, for agreements for peaceful nuclear cooperation, I am transmitting it to the Congress without exempting it from any requirement contained in section 123 a. of that Act. This transmission shall constitute a submittal for purposes of both sections 123 b. and 123 d. of the Atomic Energy Act. The Administration is prepared to begin immediately the consultations with the Senate Foreign Relations and House International Relations Committees as provided in section 123 b. Upon completion of the 30-day continuous session period provided for in section 123 b., the 60-day continuous session provided for in section 123 d. shall commence.

WILLIAM J. CLINTON.

THE WHITE HOUSE, January 28, 1998.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on International Relations and ordered to be printed (H. Doc. 105-183).

¶2.11 MESSAGE FROM THE PRESIDENT—  
U.S.-SWISS NUCLEAR ENERGY  
AGREEMENT

THE SPEAKER pro tempore, Mr. SNOWBARGER, laid before the House a message from the President, which was read as follows:

*To the Congress of the United States:*

I am pleased to transmit to the Congress, pursuant to sections 123 b. and 123 d. of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2153(b), (d)), the text of a proposed Agreement for Cooperation Between the Government of the United States of America and the Swiss Federal Council Concerning Peaceful Uses of Nuclear Energy, with accompanying agreed minute, annexes, and other attachments. I am also pleased to transmit my written approval, authorization, and determination concerning the agreement, and the memorandum of the Director of the United States Arms Control and Disarmament Agency with the Nuclear Proliferation Assessment Statement concerning the agreement. The joint memorandum submitted to me by the Secretary of State and the Secretary of Energy, which includes a summary of the provisions of the agreement and other attachments, including the views of the Nuclear Regulatory Commission, is also enclosed.

The proposed new agreement with Switzerland has been negotiated in accordance with the Atomic Energy Act of 1954, as amended by the Nuclear Non-Proliferation Act of 1978 (NNPA) and as otherwise amended. It replaces an earlier agreement with Switzerland signed December 30, 1965, which expired by its terms August 8, 1996. The proposed new agreement will provide an updated, comprehensive framework for peaceful nuclear cooperation between the United States and Switzerland, will facilitate such cooperation, and will establish strengthened nonproliferation conditions and controls including all those required by the NNPA. The new agreement provides for the transfer of moderator material, nuclear material, and equipment for both nuclear research and nuclear power purposes. It does not provide for transfers under the agreement of any sensitive nuclear technology (SNT). (U.S. law permits SNT to be transferred outside the coverage of an agreement for cooperation provided that certain other conditions are satisfied. However, the Administration has no plans to transfer SNT to Switzerland outside the agreement.)

The proposed agreement has an initial term of 30 years, and will continue in force indefinitely thereafter in increments of 5 years each until terminated in accordance with its provisions. In the event of termination, key nonproliferation conditions and controls, including guarantees of safeguards, peaceful use and adequate physical protection, and the U.S. right to approve retransfers to third parties, will remain effective with respect to transferred moderator materials, nuclear materials, and equipment, as well as nuclear material produced through their use. The agreement also establishes procedures for determining the survival of additional controls.

Switzerland has strong nonproliferation credentials. It is a party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and has an agreement with the International Atomic
